A minibus and a naturalist guide will be waiting on the pier to take you on a 30-minute drive to the departure point. Here a naturalist tour guide will tell you all about the mangrove, which, although you may not know it, plays a vital role in the sustainability of the planet. A shaded boat will take you deep into the heart of the mangrove and you can try and spot all the different species of wildlife that live there. After a boat ride of 1h45 you will arrive at the village and enjoy a well-deserved snack before taking the minibus back to the pier. You can also be dropped off at Quepos, where you will find several restaurants and shops.

Please note:
